Management Comment

Commenting on the performance, **Dr. Emmanuel Rupert, Managing Director and Group CEO, Narayana Hrudayalaya Limited**, said *“Having surpassed the pre-Covid highs of profitability for the 1st time post the onset of the pandemic in the previous quarter after the gradual recovery witnessed post the second wave, our Indian operations were significantly impacted during Q4 FY 22 due to the third wave induced disruptions. While this did result in an QoQ decline in the profitability of our Indian operations with Q4 historically being the strongest quarter for the domestic business, we are pleased to have ended the year on a strong footing with the recovery witnessed in the month of March, 2022. Our consolidated profitability for the quarter was aided by our international ventures at Cayman Islands and hospital project management at St. Lucia.*

Overall, despite the severe challenges faced during the year gone by, we are pleased to have made a strong comeback post the almost washout in the previous fiscal and have further fortified our balance sheet and continue to maintain a strong liquidity profile with best in class return ratios. Looking ahead, we look to sustain the business momentum notwithstanding Covid-19 related uncertainties.”
