- Narayana Multispeciality Hospital, Guwahati treated a complex case of acute pancreatitis with GI bleed and shock. After stabilisation, patient underwent CECT abdomen which showed gastroduodenal artery (GDA) pseudoaneurysm which was successfully managed by DSA+ Angio - Embolisation

Management Comment

Commenting on the performance, **Dr. Emmanuel Rupert, Managing Director and Group CEO, Narayana Hrudayalaya Limited**, said *"With the effects of the second wave of the pandemic subsiding, our Indian operations staged a decent recovery during the quarter gone by, after the significant impact as observed in Q1 FY 22. With new Covid-19 cases waning across the country, we remain encouraged by the business momentum revival across the network. However, the profitability of our flagship Health City, Bengaluru centres remain affected, as compared to the pre-Covid times, given the erosion in international patient mix as well as high-end cardiac sciences based elective work. Overall, we are pleased to report record profitability during the period on the back of recovery in Indian operations aided by our international ventures at Cayman Islands and hospital project management at St. Lucia.*

Looking ahead, with the vaccination coverage expanding by the day, we are hopeful that business activity will resume its pre-covid growth trajectory. At the same time, we remain vigilant over the developments taking place globally with regards any fresh wave of infection to prepare ourselves accordingly in case of any further disruptions."
